

WAX RECOMMENDATION **TOKO**[®]

Colorado Biathlon Sprint

Snow Mountain Ranch, Granby, CO

Saturday, January 7

9 A.M. Bib Pickup

Sprint

<https://www.coloradobiathlon.org/schedule.html>

Forecast/Conditions: Overnight low of 10F with a 60 percent chance of snow. Upper teens at the start of the race with windy conditions. We are back to cold dry Colorado snow at SMR.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on High Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A fine grind with no additional structure will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
