

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## **Spud Chase**

Teton Reserve, Victor, ID

Saturday, January 21

10 A.M.

21K, Skate

Mass start

[jhnordic.com/events/2023-spud-chase-nordic-ski-race/](https://jhnordic.com/events/2023-spud-chase-nordic-ski-race/)

**Forecast/Conditions:** Overnight low single in the digits F, temperature at start in the low teens. Fresh packed powder.

**Glidewax:** Apply Performance Blue Hot Wax, scrape and brush. Then apply High Performance Blue Hot Wax, sprinkle on X-cold Powder, [iron in together](#), scrape and brush.

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](https://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](https://TokoUS.com).
