

WAX RECOMMENDATION **TOKO[®]**

Junior Birkie

Primary & Elementary schools in Hayward, WI

Thursday, February 23

1 P.M. - 2:15 P.M.

1.5K/3K Skate/Classic - Individual & Relay Events

<https://www.birkie.com/ski/events/junior-birkie/>

Forecast/Conditions: Overnight low of around 8F with a daytime high of around 14. Start time temperature will be around 12. Expect blustery conditions with snow falling during the event. The track will become softer as more little skis are on the course.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Go have fun!

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-3 layers of Nordic GripWax Blue, corking between layers.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
