

WAX RECOMMENDATION TOKO®

Chasing the Sun WBA Race 5

Liberty Bell High School, Winthrop, WA

Saturday, February 25

9:15 A.M. Zeroing, 10:30 A.M. Race

12.5K Men, 10K Women

Individual Format

<http://www.methowvalleynordic.com>

Forecast/Conditions: Overnight low of 3F, temperature at start around 16. A very old and somewhat dirty snowpack with some transported snow to cover areas affected by recent warm temperatures that will be Ginzu groomed. A partly sunny day is forecast.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on High Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A fine structure or covering an existing structure by making one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
