Saturday, February 18

Noon

1K-3K, Freestyle technique

Interval start

1K loop

[www.skireg.com/for-the-love-of-snow-osceola-ski-club#Location](http://www.skireg.com/for-the-love-of-snow-osceola-ski-club#Location)

**Forecast/Conditions:** Overnight high temperature in the mid-40s falling in the morning to 28 at the start. Transformed snow with a chance of rain changing over to snow during the morning, under cloudy skies.

**Glidewax:** Apply Base Performance Red Hot Wax, scrape and brush. Then apply High Performance Yellow Hot Wax, scrape and brush thoroughly.

**Gripwax:** N/A

**Structure:** A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
