

WAX RECOMMENDATION **TOKO**[®]

Stowe Derby

Stowe Mountain Resort, Stowe, VT

Sunday, February 26

8:30 A.M.

6K/20K/40K, Skate and Classic

Wave start

<https://www.skireg.com/stowederby>

Forecast/Conditions: Overnight low 3F, temperature at start 15 warming up to 27 throughout the day. Light snow between 1-3 inches accumulation throughout the day with winds up to 10 mph.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Then apply High Performance Red Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2 layers of Nordic GripWax Blue, corking between layers. Then apply 2 layers of GripWax Red, corking between layers.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions for Short Course racers. A universal structure covered by one pass with the Red Structurite tool will best suit Long Course racers.

Created by Ben Lustgarten, Toko Tech Team member since 2020.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
