

WAX RECOMMENDATION **TOKO**[®]

Saratoga Biathlon/NY State Biathlon Champs

Saratoga Biathlon Club, Day, NY

Saturday, March 4

Noon start

Team Relay, Freestyle technique

Multiple laps

More info [here](#)

Forecast/Conditions: Low Friday night of 24 with snow accumulating up until race time. Race temperature of 32. Machine groomed snow with older snow tilled in.

Glidewax: Apply Base Performance Red Hot Wax, scrape and brush. Then apply High Performance Yellow, scrape and brush thoroughly.

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
