Snow Mountain Ranch, Granby, CO

Sunday, March 12

9 A.M.

50K, 25K, 12.5K, 3K, Classic

Mass start by distance

12.5K loop

More info [here](#)

Forecast/Conditions: Saturday night low in the teens warming to mid-20s by race start. Slight chance of overnight snow. Soft windblown tracks are likely.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax/HP Red Hot Wax mixed 1:1, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 4-5 layers of Nordic GripWax Red, corking between layers.

Structure: A fine structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
