

WAX RECOMMENDATION **TOKO**[®]

Western Club Championships Skate

Auburn Ski Club Training Center, Soda Springs, CA

Sunday, March 19

9 A.M.

3K/5K/10K, Skate

Mass start

Multiple laps

<http://auburnskiclubtrainingcenter.org>

Forecast/Conditions: Overnight low 29, temperature at start 32, with a high of 35. There is a 70 percent chance of new snow and it will be windy.

Glidewax: Apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Created by Ben Grasseschi, Toko Tech Team member since 2003.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
