

WAX RECOMMENDATION

Cascade Crest

Mt. Bachelor Nordic, Bend, OR

Saturday, April 29

8 A.M.

50K/25K/12.5K, Freestyle

Mass start

One or two loops

<https://mbsef.org/cascadecrest/>

Forecast/Conditions: Friday night mostly clear with a low around 44. Saturday mostly sunny with a high near 66.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on High Performance Yellow Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply HP Blue Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Created by Colin Mahood, Toko Tech Team member since 2001.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
