

WAX RECOMMENDATION **TOKO**[®]

2023 Kendall Memorial

Craftsbury Outdoor Center, Craftsbury, VT

Sunday, December 10

9 A.M.

10K/5K, Skate

Mass start by category

<https://www.skireg.com/kendall-memorial>

Forecast/Conditions: Overnight low of 37 with temperature rising to the low 40s by late morning Sunday. Rain expected throughout the day with light showers in the morning.

Glidewax: Apply High Performance Red Hot Wax, scrape and brush. Spray on High Performance Yellow Liquid Paraffin, let stand up to 2 hours, then polish with the Liquid Paraffin Polishing. If you do not have LP spray, apply P Blue Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Created by Ben Lustgarten, Toko Tech Team member since 2020.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
