

WAX RECOMMENDATION **TOKO[®]**

Betty Woolsey Classic

Trail Creek Ranch, Wilson, WY

Saturday, December 23

10 A.M.

10K/5K/3K, Skate

Mass start by distance

Single loop

<https://jhsclub.org/event/betty-woolsey-classic-race-0>

Forecast/Conditions: Note the change to Skate! Overnight low in the upper 20s, race start temperature around 30, an 80 percent chance of snow falling. Expect about a half inch of fresh before the start, snow continuing throughout the event. Early season, so expect some tree debris and some dirty snow in the woods. Likely firm and fast if it doesn't snow too much. PistenBully grooming planned for Friday night.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
