

# WAX RECOMMENDATION **TOKO<sup>®</sup>**

## **Bogus Night Skate**

Bogus Basin, Boise, ID

Tuesday, January 16

5:30 P.M.

1K/3K/5K/10K Skate

Mass start

2 loops

<https://www.bbnt.ski/race>

**Forecast/Conditions:** Clear to partly cloudy skies Monday and Tuesday with a Monday night low around 4F, Tuesday high of 18 dropping to around 15 degrees at the start time. Expect a firm track of fresh snow. About 2-4 inches of new snow is forecasted Tuesday night, but is likely to come after the race.

**Glidewax:** Apply Performance Blue Hot Wax, scrape and brush. Then apply High Performance Blue Hot Wax, scrape and brush.

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final hot wax will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
