

# WAX RECOMMENDATION **TOKO®**

## Founders' Classic

Vasaloppet Center, Mora, MN

Saturday, January 27

3 P.M.

20K/10K/5K, Classic tour/race

[www.moraskiclub.org/community-events/founders-classic](http://www.moraskiclub.org/community-events/founders-classic)

**Forecast/Conditions:** Freeze/thaw cycles through Saturday with daytime highs in the 30s. Friday evening low of 29 rising to 32 by noon and in the mid-30s through racetime. Partly cloudy, breeze from the west, low relative humidity. Course is a 7K loop of manmade snow, which will be soft and dirty in a spots.

**Glidewax:** Apply a layer of Performance Blue, scrape and brush. Then apply HP Red Hot Wax/HP Yellow Hot Wax mixed 1:1, scrape and brush, spray on HP Liquid Paraffin Yellow, let stand at least two hours, then polish with the Liquid Paraffin Polishing Brush. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax/HP Yellow Hot Wax mixed 1:1, scrape and brush

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply in the klister zone a single layer of Nordic Klister Red, let cool, smooth and cover with a layer of Nordic GripWax Yellow. If using skin skis, treat skins with Eco Skin Proof. For best performance, apply Eco Skin Proof on Friday.

**Structure:** A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
