

WAX RECOMMENDATION TOKO®

Saratoga Biathlon Weekend

Saratoga Biathlon Club, Hadley, NY

Saturday, January 27

Noon

Sprint race, Freestyle technique

Individual start

Multiple laps

<https://www.skireg.com/saratoga-biathlon-weekend>

Forecast/Conditions: Overnight low 31, temperature at start 40.
Wet, dirty, transformed snow, under cloudy skies.

Glidewax: Apply High Performance Yellow Hot Wax, scrape and brush. Sprinkle on HP Powder Yellow, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Yellow Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Structure: A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax/Powder will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
