

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## The Great Nordeen

Mt. Bachelor Nordic Center, Bend, OR

Sunday, January 28

7:30 A.M.

30K/18K, Freestyle

Mass start

30K is 3 laps, 18K is 1.5 laps

<https://mbsef.org/great-nordeen-nordic-and-fatbike-race/>

Forecast/Conditions: Rain starting Friday night and continuing through Saturday. Saturday night rain likely, mostly cloudy with a low around 33. A 40 percent chance of rain Sunday and a high of 41.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Spray on HP Liquid Paraffin Yellow, let stand at least two hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Created by Colin Mahood, Toko Tech Team member.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
