

# WAX RECOMMENDATION

## OISRAN Teacup Classic

Mt Bachelor Nordic Center, Bend, OR

Saturday, January 6

3 P.M.

5K, Classic

Interval start

2 laps

Forecast/Conditions: Overnight low around 20. A 100 percent chance of snow, could be heavy at times. Areas of blowing snow. High near 24. Breezy. New snow accumulation of 3 to 7 inches possible.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush, then apply BP Red Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply Nordic GripWax Blue and GripWax Red, alternating and corking between layers.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Created by Colin Mahood, Toko Tech Team member since 2000.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
