

# WAX RECOMMENDATION **TOKO<sup>®</sup>**

## **Snow Mountain Ranch Classic**

Snow Mountain Ranch, Granby, CO

Saturday, January 13

10 A.M.

15K/7.5K, Classic

Mass start by distance

1 or 2 laps

<https://skigrandnordic.org/grand-nordic-race-series/>

**Forecast/Conditions:** Snow and wind Thursday through Saturday. Friday night low around 9F with air temperature rising to mid-teens by race start. Snow showers and wind will continue through Saturday, creating softer track conditions.

**Glidewax:** Apply Performance Blue Hot Wax, scrape and brush. Then apply High Performance Hot Wax Blue, scrape and brush well.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-4 layers of Nordic GripWax Blue, corking between layers

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax.

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
