

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## Stratton Terrain Challenge

Stratton Nordic Center, Stratton VT

Saturday, January 27

10 A.M.

6K, Skate

Interval start

Multiple laps of a terrain park with obstacles

<https://nensa.net/event/stratton-terrain-challenge-2/>

Forecast/Conditions: Rain on Friday. Overnight low of 32, staying in the low 30s all day Saturday. Cloudy. Expect corn snow.

Glidewax: Apply High Performance Red Hot Wax, scrape and brush. Sprinkle on HP Powder Yellow, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax/Powder will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
