

# WAX RECOMMENDATION **TOKO<sup>®</sup>**

## **Teton Ridge Classic**

Moose Creek Ranch, Victor, ID

Saturday, January 6

10:30 A.M.

16K/8K/4K, Classic

Mass start by distance, 8K lap, half lap for 4K

<http://tetonridgeclassic.com>

**Forecast/Conditions:** Friday 1-3 inches of new snow. Overnight low 14, temperature at start high teens to low 20. Expect 1/2 inch of new snow Saturday. Fresh snow will be on top of a very firm track of old snow.

**Glidewax:** Apply High Performance Blue Hot Wax, scrape and brush. Spray on High Performance Blue Liquid Paraffin, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape, and brush, then apply HP Blue Hot Wax, scrape and brush.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 4 layers of Nordic GripWax Red, corking between layers. If using skin skis, treat skins with Eco Skin Proof. For best performance, apply Eco Skin Proof the day before the event. If there is no new snow check at the Mike Harris trailhead sign where Toko will have an updated kick wax recommendation and Toko wax techs will be set up at the trailhead to assist.

**Structure:** A universal grind covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Created by Dan Streubel, Toko Tech Team member since 2022. [dan@tetonridgeclassic.com](mailto:dan@tetonridgeclassic.com)

**Racing - Service**

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
