

WAX RECOMMENDATION **TOKO**[®]

National Guard Biathlon Championships

Soldier Hollow, Midway, UT

Saturday, February 17

10 A.M.

10K Men, 7.5K Women, Skate

Individual Sprint

Event info [here](#)

Forecast/Conditions: Overnight low 21, temperature at start 28-30, daytime high temperature 43. New, dry snow, mostly sunny.

Glidewax: Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Red, let stand at least 2-4 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Structure: A universal grind covered by one pass with the Red Structurite tool after the final hot wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
