

WAX RECOMMENDATION **TOKO**[®]

National Guard Biathlon Championships Pursuit

Soldier Hollow, Midway, UT

Sunday, February 18

10 A.M.

12.5K Men, 10K Women, Skate

Pursuit start

Event info [here](#)

Forecast/Conditions: Overnight low 28, temperature at start 30-35, daytime high 42. Expect rain/snow mix and mostly cloudy skies.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Sprinkle on HP Powder Red, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Structure: A warm/wet grind covered by one pass with the Yellow Structurite tool before scraping and brushing the final Hot Wax/Powder will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
