

# WAX RECOMMENDATION **TOKO**<sup>®</sup>

## Junior Muffin Race

Cross Country Ski Headquarters, Roscommon, MI

Sunday, February 25

10:30 A.M.

6x2K Freestyle, 2 Skier Team Relay

<https://nordicskiracer.com>

**Forecast/Conditions:** Overnight low of 26, 35 at race start. Mostly cloudy with winds 15-20 mph with gusts as high as 35 mph. Course will have a hard-packed base of transformed manmade and natural snow.

**Glidewax:** Apply High Performance Blue Hot Wax, scrape and brush. Sprinkle on HP Powder Red, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

**Gripwax:** NA

**Structure:** A fine or universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax/Powder will best suit these conditions.

Created by Nick Baic, Toko Tech Team member since 2007.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
