

WAX RECOMMENDATION **TOKO**[®]

2024 Soldier Hollow Grand Tour

Soldier Hollow, Midway, UT

Saturday, February 10

10 A.M.

15K (half) and 30K (full), Free technique

Mass start

15K loop

utaholympiclegacy.org/event/2024-soldier-hollow-grand-tour/

Forecast/Conditions: Overnight low of 12, temperature at start 20 rising to around 30 by race end. Some cold new snow tilled with transformed frozen natural and manmade snow will yield fast conditions. A 20 percent chance of new snow on Saturday.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush, then apply High Performance Blue Hot Wax, scrape and brush. Sprinkle on HP Powder Blue, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush.

Structure: A fine structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax but before the Powder will best suit these conditions.

Created by Jason Travis, Toko Tech Team member since 2000. Jasontravis00@gmail.com

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
