

WAX RECOMMENDATION **TOKO**[®]

Michigan State HS Championship Sprint

Al Quaal Recreation Area, Ishpeming, MI

Friday, February 9

1:30 P.M. Qualification, 2:30 P.M. Heats

1K, Freestyle

Individual start Qualification, Mass start Heats

[Event Website](#)

Forecast/Conditions: A chance of rain and snow showers before 8 A.M., then a slight chance of snow showers between 8 A.M. and 10 A.M. Mostly cloudy, with a high near 38. Expect wet, highly transformed snow and soft conditions.

Glidewax: Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Yellow, let stand at least two hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A wet structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Created by Michael Young, Toko Tech Team member since 2005.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
