

WAX RECOMMENDATION **TOKO**[®]

2024 Rangeley Loppet - Saturday

Rangeley Lakes Trail Center, Rangeley, ME

Saturday, March 2

9:45 A.M.

50K, Freestyle

Mass start

<https://www.skireg.com/rangeley-loppet>

Forecast/Conditions: Overnight low of 23 with the temperature rising to 35 by race start time. Cloudy throughout the day with rain coming in the afternoon, warming up to 43. Conditions will be groomed transformed snow that will get warm and softer throughout the day.

Glidewax: Apply High Performance Red Hot Wax, scrape and brush. Then sprinkle on High Performance Yellow Powder, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A warm structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax/Powder will best suit these conditions.

Created by Ben Lustgarten, Toko Tech Team member since 2020.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
