

WAX RECOMMENDATION **TOKO[®]**

Bangtail Biathlon

Crosscut Mountain Sports Center, Bozeman, MT

Saturday, February 3

9 A.M. Zero, 10 A.M. Interval start

Sprint, Skate

Laps ranging from 1K-2.5K

<https://www.crosscutmt.org/bangtail-biathlon>

Forecast/Conditions: Friday night low of 34 with some light rain/snow mix. Temperature at start will be 34 with a high of 36 and overcast. About 3-5 inches of new snow expected throughout the day on Saturday.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Sprinkle on HP Powder Blue/HP Powder Red mixed 1:1, iron, let cool, scrape and brush. If you do not have HP Powder, apply Performance Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax/HP Red Hot Wax mixed 1:1, iron, scrape and brush.

Structure: A universal grind covered with one pass of the Red Structurite tool after scraping and brushing the final Hot Wax/Powder will best suit these conditions.

Racing - Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
