

WAX RECOMMENDATION

2024 Rangeley Loppet - Sunday

Rangeley Lakes Trail Center, Rangeley, ME

Sunday, March 3

9:05 A.M.

25K/10K Classic, 25K Freestyle

Mass start

<https://www.skireg.com/rangeley-loppet>

Forecast/Conditions: Overnight low of 36 with the temperature rising to 41 by race start time. Partly cloudy throughout the day with sun coming by midday, warming up to 50. Conditions will be groomed transformed wet snow that will get warm and softer throughout the day.

Glidewax: Apply High Performance Red Hot Wax, scrape and brush. Then sprinkle on High Performance Yellow Powder, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Klister Green, cork smooth, let cool. Apply 1-2 thin layers of Klister Yellow, smooth and let cool.

Structure: A warm structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax/Powder will best suit these conditions.

Created by Ben Lustgarten, Toko Tech Team member since 2020.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
