

# WAX RECOMMENDATION

## Sonot Kkaazoot

Birch Hill, Fairbanks, AK

Saturday, March 23

10 A.M.

10K/30K/50K, Freestyle

<https://sonotkkaazoot.org>

Forecast/Conditions: Friday a slight chance of snow between 1 P.M. and 4 P.M., then chance of snow and freezing rain. Mostly sunny with a high of 40. Friday night chance of snow and freezing rain before 7 P.M. then chance of snow. Saturday partly sunny with high near 42.

Glidewax: Apply High Performance Red Hot Wax, scrape and brush. Spray on HP LP Yellow, let stand at least 2 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP spray, apply BP Blue Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax or before spraying HP LP will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
