

# WAX RECOMMENDATION

## Wydaho Nordic Series Finale

Trail Creek Nordic Center, Wilson, Wyoming

Saturday, March 9th

10 A.M.

1/2K, 2.5K, 5K 10K, skate

Wave start based on distance.

<https://skinnyskis.com/events/>

Registration is day of at Trail Creek starting at 8 A.M. with suggested donation of \$20.

**Forecast/Conditions:** Overnight low 2F, temperature at start 20F. Lots of new snow over the past 10 days but expect a relatively firm track and cold dry snow.

**Glidewax:** Apply High Performance Blue Hot Wax, scrape and brush. Sprinkle on HP Powder Blue, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush.

**Gripwax:** N/A

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax/Powder.

Created by Dan Streubel Toko Tech Team member.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
