

WAX RECOMMENDATION **TOKO**[®]

Cascade Crest

Mt Bachelor Nordic, Bend, OR

Saturday, April 6

9 A.M.

50K, 25K, 12.5K, Skate

Mass start

One or two loops

<https://mbsef.org/nordic/races/>

Forecast/Conditions: Light snow on Thursday and Friday, 3 to 7 inches possible. Overnight low on Friday around 22. Saturday has a 60 percent chance of snow with a high near 30.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush. Sprinkle on HP Powder Red, iron in, let cool, scrape and brush. If you do not have HP Powder, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax/Powder will best suit these conditions.

Created by Colin Mahood, Toko Tech Team member.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
