

WAX RECOMMENDATION TOKO®

Glenn's Gallop Biathlon

Auburn Ski Club Training Center, Soda Springs, CA

Sunday, April 14

8 A.M. Zero, 9 A.M. Race

8K

Interval start

Multiple laps

Event website [here](#)

Forecast/Conditions: Overnight low 25, temperature at race start 29, with a high of 40. Up to inches of new snow on Saturday will ease into a 50 percent chance of snow showers and light winds on race morning.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush, then apply High Performance Red Hot Wax, scrape and brush. Shoot fast and ski straight....

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Created by Ben Grasseschi, Toko Tech Team member since 2003.

Check the [Wax Tips](#) page at [TokoUS.com](#) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](#).
