

WAX RECOMMENDATION

WINTER START RACE

Bear Basin Nordic, McCall, ID - Saturday, Dec 21

10 A.M. Youth, 10:30 A.M. Juniors/Adults, 5k/10k, Skate
10k is two laps

<https://www.mccallnordic.com/racing/>

Forecast/Conditions: Overnight low 27, temperature at start around 32, very light wind. At 11 A.M. the temperature will be 34 and there is a 60 percent chance of a very light rain/snow mix. Perhaps a bit of tree debris on course.

Glidewax: Apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
