

WAX RECOMMENDATION

FORBUSH CORNER TIME TRIAL

Forbush Corner, Frederick, MI - Sunday, Dec 15

10 A.M., 7k, Freestyle

Wave start

<https://www.forbushcorner.com>

Forecast/Conditions: Overnight low of 30, temperature at start of 34. Mostly cloudy, with a 55 percent chance of rain during the race. A mix of clean natural and manmade snow.

Glidewax: Apply HP Red Hot Wax, scrape and brush, spray on HP Liquid Paraffin Yellow, let stand for at least one hour, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Gripwax: NA

Structure: A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Created by Nick Baic, Toko Tech Team member since 2007

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
