

WAX RECOMMENDATION

GITCHI GAMI GAMES

American Birkebeiner Trailhead, Cable, WI - Sunday, Dec 15

8:30 A.M., 3k, 5k and 10k, Freestyle

Multiple lap courses

<https://www.birkie.com/ski/events/gitchi-gami-games/>

Forecast/Conditions: Saturday overnight low of 26 rising to 30 at the start and into the mid-30s for the PM races. Mostly cloudy with little to no chance of snow on Sunday, mild winds. The venue will be on manmade snow course.

Glidewax: Apply High Performance Red Hot Wax, scrape and brush, spray on HP Liquid Paraffin Yellow, let stand for at least one hour, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply Base Performance Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Structure: A universal or wet structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
