

# WAX RECOMMENDATION

## QUARRY ROAD OPENER

Quarry Road Trails, Waterville, ME – Sunday, Dec 8

10 A.M. , 4.5K U16, 7.5K Open, Freestyle

Interval Start – 1, 2, or 3 laps of ~ 1.5K

<https://quarryroad.org/events-calendar/quarry-road-opener-1>

---

**Forecast/Conditions:** Overnight low 13, temperature at start 22. There will be new snow mixed with manmade. Temperature rising to 27 throughout the day, cloud cover expected all day with slight chance of new snow, low wind.

**Glidewax:** Organizers request BP wax only for this event. Apply BP Blue Hot Wax, scrape and brush, spray on BP Liquid Paraffin Red, let stand 2-4 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply BP Red Hot Wax, scrape and brush.

**Gripwax:** N/A

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](https://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
