

WAX RECOMMENDATION

SKADI'S CHASE

Elm Creek Park Reserve, Maple Grove, MN - Saturday, Dec 7

8 A.M., 8K and 4K, Freestyle

Mass start, 2K lap course

<https://www.threeriversparks.org/page/minnesota-nordic-ski-opener>

Forecast/Conditions: Overnight low of 20 rising to 22 at start. Course is completely manmade snow. Little chance of new precipitation between now and the race.

Glidewax: Apply High Performance Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Red, let stand 2-4 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply Base Performance Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
