

WAX RECOMMENDATION

SEASON OPENER

Swedetown Trails, Calumet, MI – Saturday, Dec 7

10 A.M., 7.5K Freestyle

Interval Start – 2 laps

[Season Opener Ski Race December 7, 2024 – Swedetown Trails](#)

Forecast/Conditions: Friday night a 30 percent chance of snow showers, mainly before 1 A.M. Cloudy, with a steady temperature around 21. Saturday a 40 percent chance of snow showers. Cloudy, with race time temperature 22. Expect fresh, clean packed powder.

Glidewax: Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Red, let stand 2-4 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

Gripwax: n/a

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
