

# WAX RECOMMENDATION

## WINMAN EARLY BIRD

WinMan Trails, Winchester, WI - Saturday, Dec 21

10 A.M., 5k, Freestyle

Interval Start – one lap

<https://winmantrails.app.neoncrm.com/np/clients/winmantrails/event.jsp?event=9>

---

**Forecast/Conditions:** Friday night mostly cloudy with a low around 3F. Light north northwest wind. Saturday partly sunny with race time temperature of 11. New snow falling on Thursday will be groomed into the existing firm, thin base. Expecting packed powder conditions.

**Glidewax:** Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Blue, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush.

**Gripwax:** n/a

**Structure:** A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
