

WAX RECOMMENDATION

TWILIGHT CLASSIC

Bogus Basin, Boise, ID - Tuesday, Jan 7

5:30 P.M., 10k/5k/1k, Classic

Mass start – 2 laps

<https://www.bbnt.ski/race>

Forecast/Conditions: Clearing and sunny Tuesday. Monday night low of 17, Tuesday high of 26 with a race start temperature of 21. Course will be groomed with a PistenBully around 3 P.M. prior to the race. Classic tracks may glaze but should be in excellent shape.

Glidewax: Apply Base Performance Blue Hot Wax, scrape and brush. Apply High Performance Blue Hot Wax/HP Red Hot Wax mixed 1:1, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 1 layer of Nordic GripWax Red, cork smooth. If snow is sticking to the kick zone, cover with a light layer of Nordic GripWax Blue.

Structure: A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
