

# WAX RECOMMENDATION

## FOUNDERS' CLASSIC

Vasaloppet Center, Mora, MN - Saturday, Jan 25

3 P.M., 24k/12k/6k, Classic

Mass start – 6k lap

<https://www.moraskiclub.org/community-events/founders-classic>

---

**Forecast/Conditions:** Friday overnight low of 14 rising to 25 by noon and dropping to 20 for the race. Mostly cloudy with wind in the mid-teens from the NW. Course is groomed with a PistenBully and consists of manmade snow. A 10 percent chance of new snowfall after noon.

**Glidewax:** Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Red, let stand at least 2-4 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

**Gripwax:** Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-4 layers of Nordic GripWax Red, corking smooth between layers.

**Structure:** A fine or universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at [TokoUS.com](http://TokoUS.com).
