

WAX RECOMMENDATION

MORALOPPET

Vasaloppet Nordic Center, Mora, MN - Saturday, Feb 1

10:30 A.M., 20k/10k, Freestyle

Self-seeded mass start – 1 or 2 laps

<https://vasaloppet.us/moraloppet/>

Forecast/Conditions: Overnight low of 18 rising into the low 30s at the start. Race course is manmade snow packed solid by PistenBully. Cloudy with a SE wind 5-15 mph. A 30 percent chance of new snow starting early Saturday morning and continuing throughout the race.

Glidewax: Apply HP Red Hot Wax, scrape and brush, spray on HP Liquid Paraffin Yellow, let stand at least 2 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Red Hot Wax, scrape and brush, then apply HP Yellow Hot Wax, scrape and brush.

Structure: A fine or universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
