

WAX RECOMMENDATION

SNOW MOUNTAIN CLASSIC

Snow Mountain Ranch, Granby, CO - Saturday, Jan 11

10 A.M., 15k/7.5k/3k, Classic

Wave start

<https://skigrandnordic.org/grand-nordic-race-series/>

Forecast/Conditions: Overnight low Friday night 10F, temperature at start around 17. Breezy and snowy at race time, with an 80 percent chance of about a half inch to one inch falling during the race. West winds steady in the low teens mph with gusts to the mid-20s mph.

Glidewax: Apply Performance Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2-4 layers of Nordic GripWax Blue, corking smooth between layers.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
