

WAX RECOMMENDATION

TETON RIDGE CLASSIC

Moose Creek Ranch, Victor, ID – Saturday, Jan 11

10:30 A.M. 8k start, 10:40 A.M. 28k start

Mass start based on distance. 28k is 2 laps

<https://tetonridgeclassic.com/>

Forecast/Conditions: Friday overnight low of 19 with chance of 1 to 2 inches of new snow. Saturday temperature at start in the low 20s with a high of 24 and an 80 percent chance of 1 inch of new snow. Expect cold dry snow conditions with minimal glazing on a moderately firm machine-groomed track.

Glidewax: Apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 3-4 alternating layers of Nordic GripWax Red and Nordic GripWax Blue, corking smooth between layers. Final layer is GripWax Blue, corked smooth.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
