

WAX RECOMMENDATION

WASATCH CITIZEN SERIES RACE #2

Mountain Dell Golf Course, Salt Lake City, UT – Saturday, Jan 25

10 A.M. Juniors, 10:20 A.M. Adults, 5k/10k Freestyle

Individual starts on a multiple lap course

***This race has been changed from classic to freestyle technique**

<https://utahnordic.org/2025/01/21/attention-wcs-racers-technique-change/>

Forecast/Conditions: Overnight low 17, temperature at start in mid-20s and cloudy with a 70 percent chance of snow showers. Accumulation predicted to be 1-2 inches during the day. The track has old, partially transformed granular snow with possibility of a small amount of fresh new snow on top. The snow pack will remain quite cold due to very cold temperatures all week leading up to the race.

Glidewax: Apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush.

Gripwax: N/A

Structure: A universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax layer will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
