

WAX RECOMMENDATION

SEELEY HILLS CLASSIC

American Birkebeiner Trailhead, Cable, WI - Saturday, Jan 11

9 A.M., 20k (Half) Classic, 11 A.M., 35k (Full) Classic

1:30 P.M., Youth Classic

<https://www.birkie.com/ski/events/seeley-hills-classic/>

Forecast/Conditions: Overnight low of about zero F with an afternoon high of 18. Temperature for all start times will be between 6F - 16 under partly sunny skies. Expect a machined surface comprised of primarily manmade snow on the 5k lap course, with considerable glazing in the classic tracks.

Glidewax: Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Blue, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax, scrape and brush.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green short (in klister zone), cork smooth, let cool. Then create a pyramid of [multiple thick layers of Base Wax Green](#), corking between each layer. Stay short, not beyond klister zone. Finish with a thin layer of GripWax Blue, corking lightly.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
