**Forecast/Conditions:** Friday overnight low of 20 rising in the mid-20s for the qualifying rounds and heats. Partly sunny with wind in mid-teens from the NW with gusts up to 30 mph. Course consists of manmade snow with little chance of new natural snow on race day. Expect loose snow on hills from heavy skier traffic.

**Glidewax:** Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Red, let stand at least 2-4 hours, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply HP Red Hot Wax, scrape and brush.

**Structure:** A fine or universal structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.
