

# WAX RECOMMENDATION

## ROYAL GORGE SKATE RACE

Royal Gorge XC Ski Center, Soda Springs, CA - Sunday, Feb 9

Noon start for Citizen Race, 7.5k, Skate

Mass start, 3 x 2.5k loop

<https://www.royalgorge.com/events>

---

**Forecast/Conditions:** Overnight low 10, temperature at start 28, with a high of 32. New snow expected Thursday and Friday with transforming snow in the sun on race day. Mostly clear with light winds on race day. The wind and new snow will keep the snow skiing colder.

**Glidewax:** Apply HP Blue Hot Wax, scrape and brush, spray on HP Liquid Paraffin Blue, let stand overnight, then polish with the Polishing Brush Liquid Paraffin. If you do not have LP, apply BP Blue Hot Wax, scrape and brush, then apply HP Blue Hot Wax/HP Red Hot Wax mixed 1:1, scrape and brush.

**Gripwax:** N/A

**Structure:** A universal structure covered by one pass with the Red Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

*Created by Ben Grasseschi, Toko Tech Team member since 2003.*

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Yellow, Red or Blue), as the temperature ranges are the same. All Race Wax Tips recommend ONLY fluorine-free products. Older HP or P Toko waxes (Liquid or Hot Wax) contain fluorine. New labels look very similar but all say PFC Free. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
