

# WAX RECOMMENDATION

## SIERRA SKOGSLOPPET

Tahoe Donner XC, Truckee, CA - Sunday, March 23

9 A.M, 15k, Skate

Mass start

[www.tahoedonner.com/xc](http://www.tahoedonner.com/xc)

---

**Forecast/Conditions:** Overnight low 28, temperature at start 38 with a high of 57. Average snow temperature 29-32. Cloudy with a 30 percent chance of snow on Friday, warm with light winds on race day.

**Glidewax:** Apply HP Blue Hot Wax, scrape and brush. Sprinkle on [Jet Powder](#) Yellow and make two passes with iron at 180c, let cool, scrape and brush. Polish with a merino wool roller. Then spray on [Jet Liquid](#) Yellow, let the ski dry flat for at least 20 minutes then polish with a merino wool roller or nylon polishing brush. If you do not have Jet Powder or Jet Liquid, feel free to use HP Liquid Paraffin Yellow.

**Gripwax:** N/A

**Structure:** A universal structure covered by one pass with the Yellow Structurite tool after scraping and brushing the final Hot Wax or Jet Powder layer but before applying Jet Liquid or HP LP will best suit these conditions

Check the [Wax Tips](#) page at [TokoUS.com](http://TokoUS.com) before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
