

WAX RECOMMENDATION

QUARRY ROAD OPENER

Quarry Rd, Waterville, ME - Sunday, Dec 7

10 A.M., 7.5k, Classic

Interval start, 3 laps

<https://www.quarryroadskiclub.org/>

Forecast/Conditions: Overnight low of 18 rising to 24 at the start. Manmade snow with some natural mixed in. Cold, dry snow with a high temperature of 31. Partly cloudy and calm.

Glidewax: The event organizer requests that everyone use basic level waxes only. Apply BP Blue Hot Wax, scrape and brush, and go ski.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply alternating layers of Nordic GripWax Red and Base Wax Green, corking between layers. Final layer should be Red.

Structure: A fine structure covered by one pass with the Blue Structurite tool after scraping and brushing the final Hot Wax will best suit these conditions.

Racing-Service

Check the [Wax Tips](#) page at TokoUS.com before all of your races for the latest waxing information. Toko Race Wax Tips offer racers precise waxing advice on how to make skis perform optimally for a given event. If you do not have High Performance wax, substitute Performance or Base Performance wax of the same color (Blue, Red or Yellow), as the temperature ranges are the same. For a more economical option, omit Jet topcoats. All Race Wax Tips recommend ONLY fluorine-free products. To see optimal application procedures for both Glidewax and Gripwax, go to the [How To](#) link at TokoUS.com.
